

MARMARA UNIVERSITY FACULTY OF ENGINEERING ROBOTICS TEAM INTERNATIONAL MARMARA ROBOT OLYMPICS 2017

RULES OF FREE STYLE

Freestyle category robots will be evaluated by our valuable freestyle category judges, taking into consideration the following criteria:

- Creativity %25
- Autonomy %10
- Design (performance, cost, simplicity) %25
- Endurance %5
- Feasibility %25
- Presentation Performance %10

In this category, competitors exhibit the projects that they have done by themselves to the jury of the "Free Style Category" and to the participants for 2 days. Teams participating to freestyle category should post a detailed report about their robots on the recording system while registering their robots via the internet. The reports must consist of at least 2, at most 6 pages and must be posted to the email address mufrobotics@gmail.com no later than 18.02.2017. Reports will be evaluated by our freestyle category judges before competition. The evaluation will be announced on 20.02.2017. After the specified time, teams which wouldn't have posted or which couldn't pass the evaluation, will not be accepted to the category by no means

MufeRobotics holds its right to make changes in the rules without any justification, when necessary.
